PROFESSIONAL SUMMARY

Motivated **Electronics and Communication Engineering student** with internship experience in frontend development and software testing. Proficient in HTML, CSS, JavaScript, and SQL with experience in fixing UI issues, improving website performance, generating structured test data and validating functionality through positive and negative test case. Seeking an entry-level Software Developer or Software Testing position to apply my technical skills and contribute to building reliable and scalable software applications.

TECHNICAL SKILLS

- **Programming Languages:** C, Python (Basic)
- **Web Technologies:** HTML, CSS, JavaScript (Basics), Bootstrap
- **Database:** SQL
- **Testing & Tools:** Playwright, GitHub, VS Code, Figma

PROJECTS

- **Intercollegiate Symposium Website --** Worked as Frontend Developer to design and implement responsive, user-friendly web pages for the department's intercollegiate symposium.
- **Apnea Alarm --** Developed an IoT-based apnea alarm system using Arduino to monitor oxygen levels and trigger a buzzer alert when levels fall below the threshold.
- **Telegram Bot** – Developed a chatbot that delivers personalized daily horoscopes directly to users.

INTERNSHIP

- **Front-end Development Intern** – AuraWeb Digital **JUL-2025 – Present**
  - Worked on fixing UI issues and improving performance.
  - Handled basic frontend updates on a website built using Next.js.
  - Generated structured test data (CSV/JSON) for functional and regression testing.
  - Executed positive and negative test cases and supported automation testing using Playwright to ensure application functionality and reliability.

- **Front-end Development Intern** – NSIC, Chennai, Tamil Nadu, India. **JUN – JUL-2025**
  - Built responsive web applications using HTML, CSS, JavaScript, Bootstrap and Figma.
